

# Current TSPV Opportunities

As at 18 Nov 2022

Omni is a dynamic and growing organisation, always interested in quality people with a genuine enthusiasm for their work.

The positions advertised below are open to candidates who hold a current Top Secret Positive Vetting (TSPV) security clearance or have held a TSPV in the previous 12-month period (which has since been downgraded).

Candidates with a current Defence recognised Psychological Assessment are preferred but not essential.

## Sustainment Manager SFIA 4

**Close date:** 1 Mar 2023

**Location:** Canberra

**Reference:** 59/2022- 1

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Sustainment Manager will be responsible, under limited direction, to develop and manage processes to sustain a complex ICT capability. The Sustainment Manager will have a proven ability to work with internal service managers, internal and external customers, and external service providers.

## Project Manager SFIA 4

**Close date:** 30 Jan 2023

**Location:** Canberra

**Reference:** 98/2022- 3

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Project Manager will be a highly organised, dynamic, outcome orientated individual with excellent communication skills who is confident to break down large projects into discrete work packages from concept to delivery, for a diverse range of customers.

The Project Manager is responsible for leading the planning and implementation of projects, including defining the scope and requirements, developing plans and schedules, managing the project's budget, overseeing and planning resource allocation and work packages, managing risks and issues and communicating formally and informally on the project's progress.

## ICT System Administrator SFIA 4

**Close date:** 30 Nov 2022

**Location:** Canberra

**Reference:** 102/2022- 1

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Endpoint Services Section requires ICT System Administrators to maintain application support processes, and check that all requests for support are dealt with according to agreed procedures. ICT System Administrators use application management software and tools to investigate issues, collect performance statistics and create reports.

## Software Tester SFIA 4

**Close date:** 30 Jan 2023

**Location:** Canberra

**Reference:** 97/2022- 1

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Software Tester will be responsible under general direction for creating and executing fit for purpose test plans and test cases, in accordance with the project's testing strategy. The Software Tester will ensure traceability to requirements, manage defects, provide regular progress reporting and work collaboratively with delivery staff to coordinate testing and regression activities.

## Test Engineer SFIA 3

**Close date:** 30 Jan 2023

**Location:** Canberra

**Reference:** 97/2022- 2

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Test Engineer will be responsible under direction to specify, develop and write test plans and test scripts, produce test cases, carry out regression testing, and use automated test software applications to test the behaviour, functionality and integrity of systems, and document the results.

## Test Engineer SFIA 4

**Close date:** 30 Jan 2023

**Location:** Canberra

**Reference:** 97/2022- 3

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Test Engineer will be responsible to develop and write test plans and test scripts, produce test cases, carry out regression testing, and use automated test software applications to test the behaviour, functionality and integrity of systems, and document the results.

## Systems Integrator SFIA 4

**Close date:** 30 Jan 2023

**Location:** Canberra

**Reference:** 97/2022- 4

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Systems Integrator will be responsible for working under direction as a member of a team responsible for developing software, integrating Commercial Off the Shelf (COTS) and Government Off the Shelf (GOTS) software, documenting technical processes and assisting with testing and deployment and ongoing sustainment of the capability.

The role will need systems integration skills and a proven ability to work within an integrated team of technical/non-technical personnel.

## Systems Integrator SFIA 5

**Close date:** 30 Jan 2023

**Location:** Canberra

**Reference:** 97/2022- 5

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Systems Integrator will be responsible for working under direction as a member of a team responsible for developing software, integrating Commercial Off the Shelf (COTS) and Government Off the Shelf (GOTS) software, documenting technical processes and assisting with testing and deployment and ongoing sustainment of the capability.

The role will need very high level systems integration skills and a proven ability to work within an integrated team of technical/non-technical personnel.

## Infrastructure Specialist SFIA 4

**Close date:** 1 Dec 2022

**Location:** Canberra

**Reference:** 104/2022- 2

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Infrastructure Specialist is expected to provide support to the Project Management Office (PMO) with the primary focus being on the delivery of new capability and the sustainment of existing hardware delivered under the capability project.

The types of hardware involved may include servers, blade centres, network devices, transmission equipment and other related peripheral components, including PCI-e cards and media converters.

## Facilities/Data Centre Specialist SFIA 4

**Close date:** 1 Dec 2022

**Location:** Canberra

**Reference:** 104/2022- 3

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Facilities/Data Centre Specialist will be responsible to assist with the acquisition and sustainment of infrastructure and data centre activities, including installation, removal, testing and configuration management.

## Project Coordinator SFIA 6

**Close date:** 30 Jan 2022

**Location:** Canberra

**Reference:** 82/2022- 1

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Project Coordinator will work closely with project team members, managers and leads to deliver technical Information Communications and Technology (ICT) projects.

The Project Coordinator will plan, direct, and co-ordinate activities to manage and implement a programme from contract /proposal initiation to final operational stage including the transition into “business-as-usual” whilst monitoring project progress.

The successful candidate will be required to work cohesively and communicate effectively with other project team staff and stakeholder groups.

## Project Manager SFIA 5

**Close date:** 30 Jan 2022

**Location:** Canberra

**Reference:** 82/2022- 2

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Project Manager will manage a diverse range of technical Information Communications and Technology (ICT) projects. The Project Manager is responsible for contributing to the planning and implementation of projects, including defining the scope and requirements, developing plans and schedules, managing the project’s budget, overseeing and planning resource allocation and work packages, managing risks and issues and communicating formally and informally on the project’s progress.

The Project Manager will oversee projects under limited direction. The Project Manager will be a highly organised, dynamic, outcome orientated individual with excellent communication skills who can think critically and utilise their excellent problem solving skills, as well as undertake negotiations, delegate effectively, and make timely decisions.

## Project Scheduler SFIA 5

**Close date:** 30 Jan 2022

**Location:** Canberra

**Reference:** 82/2022- 4

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Project Scheduler who will be responsible for developing and maintaining an integrated master schedule covering a number of information technology projects and non-technical activities.

The Project Scheduler will have a proven history of managing multiple schedules and in supporting project and program managers, and other key stakeholders whilst ensuring quality reviews occur on schedules and according to procedure.

The Project Scheduler will provide effective leadership to the project team, and take appropriate action where team performance deviates from agreed tolerances.

## ICT Systems Administrator (Storage and Backup) SFIA 5

**Close date:** 30 Jan 2023

**Location:** Canberra

**Reference:** 89/2022- 1

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

Provision of ICT Systems Administration (Storage and Backup) to enable the efficient sustainment of current infrastructure and design of future backup and storage solutions within a complex environment spanning multiple geographically separated data centres and remote offices.

## Project Manager SFIA 4

**Close date:** 30 Jan 2023

**Location:** Canberra

**Reference:** 98/2022- 3

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Project Manager will be a highly organised, dynamic, outcome orientated individual with excellent communication skills who is confident to break down large projects into discrete work packages from concept to delivery, for a diverse range of customers.

The Project Manager is responsible for leading the planning and implementation of projects, including defining the scope and requirements, developing plans and schedules, managing the project's budget, overseeing and planning resource allocation and work packages, managing risks and issues and communicating formally and informally on the project's progress.

The client seeks Project Managers who can think critically and utilise their excellent problem solving skills, as well as undertake negotiations, delegate effectively, and make timely decisions.

### Systems Engineer SFIA 3

**Close date:** 30 Jan 2023

**Location:** Canberra

**Reference:** 113/2022- 1

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

JP 2289 Phase 1 Intelligence Surveillance Reconnaissance (ISR) Information Environment (JP 2289-1 ISR IE) is a major ICT capability development project integrating information sources from advanced Australian Defence Force platforms. It is scoped to deliver expansive data centres with commensurate workforce and foundation ICT. To facilitate this project outcome, the client has a requirement for a Systems Engineer.

Under broad direction from the Commonwealth, the System Engineer will be responsible for undertaking system engineering activities to support the delivery of JP2289.

### Systems Engineer SFIA 4

**Close date:** 30 Jan 2023

**Location:** Canberra

**Reference:** 113/2022- 2

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Systems Engineer will be accountable under general direction to manage complex activities and tasks relating to requirements development, system definition, design and development, integration, verification and validation. The role will facilitate planning, organisation, integration and delivery of complex systems engineering services and products. The role will need systems engineering skills and a proven ability to work within an integrated team of technical and non-technical personnel.

### Systems Engineer SFIA 5

**Close date:** 30 Jan 2023

**Location:** Canberra

**Reference:** 113/2022- 3

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Systems Engineer will be accountable under general direction to manage complex activities and tasks relating to requirements development, system definition, design and development, integration, verification and validation. The role will facilitate planning, organisation, integration and delivery of complex systems engineering services and products. The role will need systems engineering skills and a proven ability to work within an integrated team of technical and non-technical personnel. The Systems Engineer will plan, organise, integrate and deliver complex systems engineering services and products, whilst working cohesively and flexibly with the broader project team, key business partners and stakeholder groups.

## Business Analyst SFIA 5

**Close date:** 30 Jan 2023

**Location:** Canberra

**Reference:** 113/2022- 4

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Business Analyst will be responsible for customer engagement, process modelling and development of system requirements. They will also be responsible for engaging with the team to ensure customer requirements are well understood and expectations on both sides are appropriately managed.

This position is responsible for the elicitation of business and technical requirements and the modelling of new and existing business processes to inform technical capability delivery for a fast paced, dynamic environment. The successful candidate will work with business stakeholders, project managers, systems architects and delivery teams as required to elicit and communicate requirements for successful outcomes. Prioritisation, stakeholder engagement and exceptional communication are all key requirements.

## Project Manager SFIA 5

**Close date:** 12 Dec 2022

**Location:** Canberra

**Reference:** 162/2022- 1

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Project Manager is accountable under broad direction to provide effective leadership of a technical Information Communications and Technology project within a Program. The Project Manager possesses the ability to receive instruction from executive staff and collaborate between a broad range of stakeholders to ensure project scope, plan and deliverables are within the agreed time, budget and quality parameters.

## System Administrator SFIA 4

**Close date:** 24 Feb 2023

**Location:** Canberra

**Reference:** 108/2022- 1

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The System Administrator is expected to provide support to the project area to deploy new capabilities and perform ongoing maintenance activities on the systems and hardware they are responsible for. The successful candidate will need highly developed system administration skills and a proven ability to work within an integrated team of technical/non-technical personnel.

## Linux System Administrator SFIA 4

**Close date:** 24 Feb 2023

**Location:** Canberra

**Reference:** 108/2022- 2

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The System Administrator is required to provide system administrative support under general direction in a key capability domain; participate within a business environment that is in a complex, emerging domain and operates at a rapid pace.

## System Administrator / VMware SFIA 5

**Close date:** 24 Feb 2023

**Location:** Canberra

**Reference:** 108/2022- 3

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Lead VMware Administrator is required to assist with the management of VMware virtual environment as per the stated direction of the technical lead and manager.

## System Administrator SFIA 4

**Close date:** 24 Feb 2023

**Location:** Canberra

**Reference:** 108/2022- 4

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The System Administrator is required to provide system administrative support under general direction in a key capability domain; participate within a business environment that is in a complex, emerging domain and operates at a rapid pace.

## System Administrator SFIA 5

**Close date:** 24 Feb 2023

**Location:** Canberra

**Reference:** 108/2022- 5

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The System Administrator is required to lead and manage system administrative support activities in a key capability domain; is able to contribute in a business environment which is in a complex, emerging domain and operates at a rapid pace.

## Software Engineer SFIA 4

**Close date:** 24 Feb 2023

**Location:** Canberra

**Reference:** 91/2022- 1

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Software Engineer will be accountable under general direction and guidance for interpreting specifications, user requirements and technical designs, developing, debugging, maintaining testing and modifying source code. The Software Engineer will also be required to configure and use appropriate software repositories and development tools, in addition to developing appropriate technical documentation. Much of this work will be conducted for embedded systems and as such, the software engineer will be required to conduct basic fault finding and debugging of hardware devices and have experience in developing for embedded systems

## Software Developer SFIA 3

**Close date:** 24 Feb 2023

**Location:** Canberra

**Reference:** 91/2022- 2

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Software Developer is required to develop and integrate software employing an Agile Software Development Methodology (SDM). The role includes developing software, integrating Commercial Off the Shelf (COTS) and Government Off the Shelf (GOTS) software, documenting technical processes and assisting with testing and deployment. The successful candidate/s will need software development skills and a proven ability to work within an integrated team of technical/non-technical personnel.

## Software Developer SFIA 4

**Close date:** 24 Feb 2023

**Location:** Canberra

**Reference:** 91/2022- 3

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Software Developer is required to assist in the development and integrate of software employing an Agile Software Development Methodology (SDM). The position/s will include developing software, integrating Commercial Off the Shelf (COTS) and Government Off the Shelf (GOTS) software, documenting technical processes and assisting with testing and deployment.

## Software Developer SFIA 4

**Close date:** 24 Feb 2023

**Location:** Canberra

**Reference:** 91/2022- 4

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Software Developer will be responsible for working under direction as a member of a team responsible for developing complex programs, integrating Commercial Off the Shelf (COTS) and Government Off the Shelf (GOTS) software, documenting technical processes and assisting with testing and deployment.

The role will need well established software development skills and a proven ability to work within an integrated team of technical/non-technical personnel.

## Software Developer SFIA 5

**Close date:** 24 Feb 2023

**Location:** Canberra

**Reference:** 91/2022- 5

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Software Developer will be responsible for working under direction as a member of a team responsible for developing software, integrating Commercial Off the Shelf (COTS) and Government Off the Shelf (GOTS) software, documenting technical processes and assisting with testing and deployment.

The role will need very high level software development skills and a proven ability to work within an integrated team of technical/non-technical personnel.

## Software Developer SFIA 5

**Close date:** 24 Feb 2023

**Location:** Canberra

**Reference:** 91/2022- 6

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Software Developer is required to perform an extensive range of complex technical work activities, including being prepared to undertake work which requires the application of fundamental and advanced knowledge in a wide and often unpredictable range of situations. The Software Developer will be required to understand the relationship between own specialism and the client's wider customer/organisational requirements.

The successful candidate/s will need high level software development skills and a proven ability to work within an integrated team of technical/non-technical personnel.

## Systems Engineer SFIA 5

**Close date:** 24 Feb 2023

**Location:** Canberra

**Reference:** 91/2022- 7

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Systems Engineer will be responsible for working under direction as a member of a team responsible for developing software, integrating Commercial Off the Shelf (COTS) and Government Off the Shelf (GOTS) software, documenting technical processes and assisting with testing and deployment.

The role will need very high-level software and systems design and development skills and a proven ability to work within an integrated team of technical/non-technical personnel.

## Project Support Officer SFIA 2

**Close date:** 24 Feb 2023

**Location:** Canberra

**Reference:** 95/2022- 1

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Project Support Officer will work under routine direction to assist several team leads in the delivery of the Project. Duties will include assisting with project procurement activities, recordkeeping, organising and minuting meetings and general administrative tasks. The incumbent will be required to function within broad guidelines and be willing to identify solutions to common administrative problems. They will need to be a self-starter and have an ability to work within strict timeframes.

The role will require project support skills and a proven ability to work within an integrated team of technical/non-technical personnel.

### Project Support Officer SFIA 3

**Close date:** 24 Feb 2023

**Location:** Canberra

**Reference:** 95/2022- 2

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Project Support Officer will play an active role in managing packages of work, schedule dependencies, project documentation, procurement, and providing administrative support. The PSO will play an important role in project planning, risk and issue management, helping to drive projects forward to achieve outcomes for a diverse range of customers.

### Project Manager SFIA 4

**Close date:** 24 Feb 2023

**Location:** Canberra

**Reference:** 95/2022- 3

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Project Manager will be a highly organised, dynamic, outcome orientated individual with excellent communication skills who is confident to break down large projects into discrete work packages from concept to delivery, for a diverse range of customers.

The Project Manager is responsible for leading the planning and implementation of projects, including defining the scope and requirements, developing plans and schedules, managing the project's budget, overseeing and planning resource allocation and work packages, managing risks and issues and communicating formally and informally on the project's progress.

### Project Manager SFIA 5

**Close date:** 24 Feb 2023

**Location:** Canberra

**Reference:** 95/2022- 3

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Project Manager will be a highly organised, dynamic, outcome orientated individual with excellent communication skills who is confident to break down large projects into discrete work packages from concept to delivery, for a diverse range of customers.

The Project Manager is responsible for leading the planning and implementation of projects, including defining the scope and requirements, developing plans and schedules, managing the project's budget, overseeing and planning resource allocation and work packages, managing risks and issues and communicating formally and informally on the project's progress.

The client seeks Project Managers who can think critically and utilise their excellent problem solving skills, as well as undertake negotiations, delegate effectively, and make timely decisions.

These professional learning experiences will include online, face-to-face and hybrid learning programs.

The service provider will have considerable stakeholder engagement skills and will be required to identify relevant stakeholders' expectations and concerns to develop a clear understanding of the methodology and practices to achieve outcomes.

## Network and Systems Engineering Manager SFIA 5

**Close date:** 30 Nov 2022

**Location:** Canberra

**Reference:** 159/2022- 1

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Systems Engineering Manager will work under limited guidance, providing systems and system-of-systems engineering advice, integration and dependency analysis, and conducting research in support of the AICNet Capability Upgrade.

The Systems Engineering Manager will lead complex activities and tasks relating to requirements development, system definition, design and development, integration, verification and validation. This person will plan, organise, integrate and deliver complex systems engineering services and products, whilst working cohesively and flexibly with the broader project team, key business partners and stakeholder groups.

## ServiceHub Data Transfer and Support Analyst SFIA 2

**Close date:** 30 Nov 2022

**Location:** Canberra

**Reference:** 159/2022- 2

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The ServiceHub Data Transfer and Support Analyst is required to provide ICT Customer Support and manual data transfers between ICT intelligence systems in support of the ADF. The ServiceHub Data Transfer and Support Analyst ICT will attend to service requests and fault reports received from ADF customers via telephone, email, in-person, or through the service request catalogue.

Regular engagement with ADF customers is required to prioritise and deliver requests, and provide status updates.

## Project Support Officer SFIA 4

**Close date:** 30 Nov 2022

**Location:** Canberra

**Reference:** 159/2022- 3

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Project Support Officer is accountable under general direction to provide effective administration and financial management Corporate and Capability System Program Officer. The Project Support Officer will assist in managing activities and processes relating to project procurement, project finance, project-specific and general administration activities including security and accommodation. The successful candidate will be required to work cohesively and communicate effectively with other project team staff and stakeholder groups.

## Software Developer SFIA 5

**Close date:** 30 Nov 2022

**Location:** Canberra

**Reference:** 159/2022- 4

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Software Developer will work as a member of a diverse delivery team that is responsible for the further development and sustainment of a Commercial Off the Shelf (COTS) software solution. This role will include all facets of the software development lifecycle and require members to design, develop, deploy, test and document solutions.

The role will need proven software development skills and an ability to work within an integrated team of technical and non-technical personnel.

The Software Developer will mentor junior developers, requiring them to provide direction on best practices and design principles in order to produce a performant, secure and sustainable solution.

## Cyber Security Advisor SFIA 5

**Close date:** 30 Nov 2022

**Location:** Canberra

**Reference:** 159/2022- 5

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Cyber Security Advisor will be responsible for the management and oversight of security accreditation processes and documentation of complex ICT systems. The successful candidate will liaise and coordinate with relevant stakeholders to deliver the required security outcome for Corporate and Capability System Programme Office (CCSPO). The Cyber Security Advisor will contribute and review, with a security focus, the design, development, project documentation, certification and accreditation of complex ICT systems being managed by CCSPO. The candidate will act as a Project Security Officer within CCSPO.

## Requirements Manager SFIA 5

**Close date:** 30 Nov 2022

**Location:** Canberra

**Reference:** 160/2022- 1

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Requirements Manager will work independently within broad guidelines to manage project requirements, configuration and benefits, and contribute to the definition of multiple tranches of work. This person will work with business stakeholders, project managers, systems architects, security stakeholders and other groups as required, to identify and develop requirements and business benefits for the project.

## Systems Engineer SFIA 5

**Close date:** 30 Nov 2022

**Location:** Canberra

**Reference:** 160/2022- 2

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Systems Engineer will lead complex activities and tasks relating to requirements development, system definition, design and development, integration, verification and validation. This person will plan, organise, integrate and deliver complex systems engineering services and products, whilst working cohesively and flexibly with the broader project team, key business partners and stakeholder groups.

## ICT Asset Manager SFIA 4

**Close date:** 28 Mar 2023

**Location:** Canberra

**Reference:** 140/2022- 1

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The ICT Asset Manager will be a highly organised, dynamic, outcome orientated individual with excellent communication skills who is confident to take responsibility for the effective management and control of a large fleet of ICT hardware, including some software.

The ICT Asset Manager is responsible under broad direction to help shape and establish a mature process for controlling of hardware and software through its lifecycle from when it is acquired to final disposal.

## Project Manager SFIA 5

**Close date:** 28 Mar 2023

**Location:** Canberra

**Reference:** 142/2022- 1

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Project Manager is accountable for the planning, management and delivery of new capability and existing system enhancements. The role will involve liaising and facilitating with business stakeholders, business analysts, program architects and development personnel.

## Software Developer - Cyber Security SFIA 5

**Close date:** 8 Feb 2023

**Location:** Canberra

**Reference:** 08/2022- 1

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Software Developer will be accountable under broad direction to interpret specifications and technical designs to build, maintain and modify code or adaptation data for software applications, construct technical specifications from a business functional model, write and execute tests, and write and maintain technical documentation.

Roles exist both in project teams and tactical positions embedded to support business units.

## Security Practitioner SFIA 5

**Close date:** 1 Dec 2022

**Location:** Canberra

**Reference:** 157/2022- 1

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Security practitioner will identify fundamental cyber concepts. Ensure proactive and continuous engagement and collaboration between security, information technology (IT), and cyber professionals. Provide timely and relevant classification direction, secure physical environment, and appropriately-cleared users. The candidate should have demonstrable Cyber Security knowledge and experience over a wide range of Cyber Security fields

Roles exist both in project teams and tactical positions embedded to support business units.

## System Administrator SFIA 4

**Close date:** 1 Dec 2022

**Location:** Canberra

**Reference:** 156/2022- 1

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The System Administrator is responsible for complex activities and tasks relating to design, development, integration, configuration, hardening, and documentation of Cyber Security Systems. The System Administrator will conduct these activities whilst working cohesively and flexibly with related stakeholders.

## Test Manager (Systems Engineer) SFIA 5

**Close date:** 2 Dec 2022

**Location:** Canberra

**Reference:** 145/2022- 1

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Test Manager (engineer) will be accountable under broad direction for leading the planning and execution of verification and validation testing across the Sub Program Office projects. The successful candidate will be required to develop test strategies and test plans, and may involve test case development and execution. The Test Manager will be required to support T&E Plan, Policy and Governance functions, including testing capability for the projects, review and report T&E Plans, and lead other T&E Practitioner from other projects.

## Test Manager (Systems Engineer) SFIA 5

**Close date:** 2 Dec 2022

**Location:** Canberra

**Reference:** 136/2022- 1

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Test Manager (engineer) will be accountable under broad direction for leading the planning and execution of verification and validation testing across the Sub Program Office projects. The successful candidate will be required to develop test strategies and test plans, and may involve test case development and execution. The Test Manager will be required to support T&E Plan, Policy and Governance functions, including testing capability for the projects, review and report T&E Plans, and lead other T&E Practitioner from other projects.

## Software Developer SFIA 4

**Close date:** 30 Jan 2023

**Location:** Canberra

**Reference:** 103/2022- 1

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Software Developer will work to the Technical Team Lead to deliver enhancements to a modern and newly introduced capability.

Working within a small team of technical specialists, the service provider will have significant autonomy in managing work, and will be able to independently approach, own and solve key problem sets.

The service provider will develop and deliver ongoing enhancements to a cloud-based software application, comprised of a range of commercial, open-source, and bespoke code, and assist in managing this system across development, quality assurance, and production environments. The service provider will also undertake required 2<sup>nd</sup> and 3<sup>rd</sup> level support activities as required to maintain system operation.

## ICT Desktop Support Engineer SFIA 4

**Close date:** 28 Mar 2023

**Location:** Canberra

**Reference:** 52/2022- 1

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

ICT Desktop Support Engineer will be responsible for working under general direction for the Deployable Support team, providing ICT troubleshooting and support to deployed users and their systems, as well as assisting with the sustainment, enhancement and hardware assembly of new deployable capability..

## ICT Desktop Support Technician SFIA 4

**Close date:** 28 Mar 2023

**Location:** Canberra

**Reference:** 119/2022- 1

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

ICT Desktop Support Technician will be responsible for deployment, troubleshooting and support of ICT endpoint devices. ICT endpoint devices include: Personal Computers, Thin Clients, Multifunction Devices (print, scan, copy), Monitors, Keyboard, Video, Mouse Switchboxes and IP Telephones

## Product Manager and Owner SFIA 6

**Close date:** 6 Dec 2022

**Location:** Canberra

**Reference:** 164/2022- 1

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Product Manager will work within Corporate and Capability System Program Office and manage selected capabilities that range from bespoke software to ICT infrastructure.

The Product Manager will typically, but not exclusively, manage the development, enhancement, sustainment and implementation of enterprise wide capabilities to meet evolving customer needs.

## Project Support Officer (Administration and Coordination) SFIA 4

**Close date:** 6 Dec 2022

**Location:** Canberra

**Reference:** 170/2022- 1

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The Project Support Officer is accountable under general direction to provide effective administration and financial management for Enterprise Technology System Program Office [ETSPO, formerly known as Corporate & Capability SPO (CCSPO)], providing important mission support to Defence Majors. The Project Support Officer will assist in managing activities and processes relating to project procurement, project finance, project-specific and general administration activities including security and accommodation. The successful candidate will be required to work cohesively and communicate effectively with other project team staff and stakeholder groups.

### Security Administrator and Security Operations Centre SFIA 3

**Close date:** 28 Mar 2023

**Location:** Canberra

**Reference:** 51/2022- 1

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

Administration and monitoring of security systems. This includes integration of security and monitoring services with customer networks, as well as engagement with customers on security requirements and ongoing security improvement to systems.

### Machine Analytics Engineer SFIA 4

**Close date:** 6 Dec 2022

**Location:** Canberra

**Reference:** 013/2022- 1

**Employment type:** Permanent

**Contact:** [contracts\\_tss@omniexe.com](mailto:contracts_tss@omniexe.com)

The engineer will deploy, configure and sustain systems which support advanced analytics and machine learning workflows. They will work under general direction from, and balancing the requirements of, the data science end-users, other engineers and system administrators, all within a complex security environment.

DevOps skills and experience are essential, and specific experience working with data scientists is definitely an advantage. Under general direction the engineer will build, accredit and sustain end-user-facing solutions for advanced analysis and machine learning utilising many of AGO's unique data sources. They will work with data scientists and data analysts with less technical knowledge as well as dedicated DevOps professionals, and must be able to bridge this communication gap effectively.

### Machine Analytics Engineer SFIA 5

**Close date:** 6 Dec 2022

**Location:** Canberra
