

ROTARY WING SPECIALISTS

Omni is an Australian-owned business focused on delivering innovative defence, national security, intelligence and critical infrastructure solutions to further our national interest.

Our locally based, expert teams deliver cutting-edge technology and pioneering solutions in support of Australia's sovereign capability.

Omni's Rotary Wing Division provides Maintenance services to a variety of clients across Australia and overseas.

With our own in-house maintenance facility and hangars across Queensland, Omni is a leader in aircraft maintenance, repair, overhaul, paint and avionics services.

We offer services on a range of aircraft and engines including:

- Aircraft = Airbus, Bell and Kawasaki
- Engine = Rolls Royce, Honeywell, Safran and Pratt & Whitney
