

OMNI'S PROFESSIONAL SERVICES

Omni is an Australian-owned business focused on delivering innovative defence, national security, intelligence and critical infrastructure solutions to further our national interest.

Our locally based, expert teams deliver cutting-edge technology and pioneering solutions in support of Australia's sovereign capability.

Omni's professional services specialists have extensive knowledge in delivering transformation projects and programs. Our consultants have extensive experience in project and program management across diverse sectors, including Government, Defence, and private industry.

Omni's professional service team members bring significant strategic, operational, and tactical experience and leverage insights gained from government departments, agencies, and industry leaders. This diverse background enables us to offer innovative solutions tailored to each client's unique needs.

At Omni, we take pride in delivering exceptional value for our clients. Our collaborative approach ensures we work in close partnership with our clients, consistently meeting and exceeding expectations.
