

OMNI ENGINEERING

END-TO-END SPECIAL MISSION SOLUTIONS

Omni Engineering provides project management, design and manufacturing services to a wide range of industries.

Our highly skilled and diverse team of engineers and technicians have extensive experience in special mission equipment design and operation. We focus on the individual needs of our clients and understand the importance of robust systems delivered on-time and within budget.

Design

At Omni, we believe client engagement, applied experience and high-fidelity data are essential in producing the best special mission equipment possible. Our clients are involved in the design process from start to finish, including the creation of detailed specifications, concept development, reviews and functional testing. We draw on the significant experience of our in-house design, manufacturing, maintenance and operations teams. Using the latest design tools, we develop quality design data that is controlled and thoroughly checked at every step.

Manufacturing

We manufacture all products in-house to ensure a high standard of work. Our team of skilled technicians and designers work hand-in-hand to guarantee manufacturability and ongoing serviceability. We follow tightly controlled production processes at every step to meet regulation requirements and ensure complete traceability of parts and materials. This includes keeping detailed records of all products for future maintenance.

Support

Our experienced team of engineers intimately understands every item and system build. We use high-fidelity design data and detailed manufacturing and testing records to provide our clients with ongoing support and reduced downtime.

Custom-made engineering is what we do

omni executive

OMNI ENGINEERING

Experience

We have experience in engineering design and manufacture for:

- Intelligence, Surveillance and Reconnaissance
- Law Enforcement, Fire and Emergency
- Search and Rescue
- Aeromedical

End-to-end capabilities

Our end-to-end capabilities include:

- System Design
- Mechanical, Electrical and Electronics Design
- Airworthiness Approvals
- Approved Manufacturing
- Aircraft Modification
- Flight Testing
- Operator Training
- Flight Operations
- Through-Life Technical Support
- Short-Notice Wet Lease ISR/SAR Platform

Who we are

Omni Executive provides high value security and intelligence solutions to a wide range of Australian Government and corporate clients. We deliver global expertise across our core business areas of aerospace, project integration, security, assurance, engineering and specialist consulting.
