

# SECURITY & TRAINING

INFORM. PREPARE. SUPPORT.

Our business is to provide niche security, intelligence and training solutions.

We work in partnership with our clients to deliver outcomes they need.

Our strength is a highly skilled and diverse team that delivers global expertise to clients.

We provide an end-to-end security service that informs, prepares and supports client requirements across the physical, technical, cyber and human domains.

## Who we are

Omni Executive provides high value security and intelligence solutions to a wide range of Australian government and corporate clients.

We field more than 100 staff with most maintaining the highest levels of Australian government security clearances.

The Omni Security and Training team can be deployed against a range of projects where expertise, trust and confidentiality are at the heart of the client relationship.

## Security and Training – Who

Our high calibre leadership team comprises experienced Australian and UK special operations veterans, former senior Australian Federal Police officers and senior Australian and US intelligence specialists.

## Security and Training – Our Record

- **Inform.** Our analysts have produced more than 1000 intelligence summaries in support of Australian Government operations and activities throughout the world.
- **Prepare.** We've trained more than 1700 Australian government personnel in situational and hostile environment awareness.
- **Support.** We have designed and project managed the construction of sensitive compartmented information facilities in Australia and overseas.

## WHAT OUR SECURITY TEAM OFFERS:

We identify risks and mitigate them to meet client needs. Our services include:

### Inform

- **Consulting.** Risk assessment and planning using Omni's trademark multi-domain security assessment tool.
- **Integrated information.** Bespoke analytical reports, individual and team based physical surveillance to satisfy validation and information requirements.

### Prepare

- Situational awareness training.
- Hostile environment awareness and personal risk mitigation training.
- Cyber training. Awareness and secure architecture design.
- Leadership. Individual and team resilience training.

### Support

- **Physical.** Critical asset protection and infrastructure security.
- **Technical.** Electro-magnetic spectrum analysis (sweep), tag, track and locate.
- **Cyber.** Protection and education.
- **Human.** Close personal protection and in-country liaison.

### Our facilities

Omni Executive has a head office in the heart of Canberra's parliamentary triangle within minutes of its government clients.

This premises also includes the only privately-owned secure communications facility (SCIF) in Australia.

We host many clients at our own rural training facility between Sydney and Canberra that can accommodate up to 24 people in ensuite rooms with communal dining and recreation facilities.

A Perth CBD office services WA-based corporate clients with a further range of services offered by our aerospace and development engineers at a metropolitan airport.

### Next steps:

Please contact us if you'd like to know more about our security and training services.
