Project Support Officer (ETSPO) SFIA 4

Close date:	3 Dec 2020
Location:	Canberra
Reference:	107/2020-3
Employment type:	Permanent
Contact:	contracts_tss@omniexe.com

The Project Support Officer is accountable under general direction to provide effective administration.

The Project Support Officer will assist in managing activities and processes relating to project procurement, project finance, asset documentation, project-specific and general administration activities including workplace health and safety, security and accommodation.

The successful candidate will be required to work cohesively and communicate effectively with other project team staff and stakeholder groups.

IT Service Desk Analyst SFIA 3

Close date:	11 Feb 2021
Location:	Canberra
Reference:	37/2020-3
Employment type:	Permanent
Contact:	contracts_tss@omniexe.com

The IT Service Desk Analyst investigates and resolves IT incidents, actions requests received through the Service Catalogue and provides advice about services provided. To provide a quality service, the IT Service Desk Analyst will keep the customer informed of the progress of their request and follow-up any outstanding actions.

The IT Service Desk Analyst works in a team environment comprising contractors and ASD Officers, providing services to a diverse range of customers. In this high paced environment, the ability to problem solve and develop new skills is essential. The role requires the IT Service Desk Analyst to work independently and also collaborate with team members and external support staff to resolve complex issues.

Service Delivery Manager SFIA 5

Close date:	4 Dec 2020
Location:	Canberra
Reference:	108/2020-1
Employment type:	Permanent
Contact:	contracts_tss@omniexe.com

The Service Delivery Manager (SDM) will work under the general direction of the Section Head for the planning, management and delivery of services. SDM will be a highly organised, dynamic, outcome orientated individual with excellent communication skills.

The SDM will be accountable for the delivery of a service and ensure the customer is first. The SDM will work closely with the customer to appreciate and understand the capability requirements and ensure progress is continuing for the benefit of our business areas. The SDM will focus on customer satisfaction, implement measures, ensure standards are met and regularly interact with the customer. The SDM will be required to have excellent interpersonal skills and be able to think quickly and analyse situations. Technical knowledge and an appreciation of business scope to ensure stability of service end to end is crucial.

Business Analyst – Logistics Management SFIA 4

Close date:	1 Dec 2020
Location:	Canberra
Reference:	104/2020-1
Employment type:	Permanent
Contact:	contracts_tss@omniexe.com

Working with the Logistics Manager, the Business Analyst is accountable under general direction to identify, manage and communicate business requirements; translate business requirements into functional specifications and work collaboratively with the Logistics management team to support the development of tools to provide life-cycle/asset management assurance to the organisation.

Cloud Infrastructure Developer SFIA 4

Close date:	7 Dec 2020
Location:	Canberra
Reference:	109/2020-1
Employment type:	Permanent
Contact:	contracts_tss@omniexe.com

The Cloud Infrastructure Developer will work to the Technical Team Lead. Within a team of like-minded individuals, you will primarily work in a fast-paced development environment with the freedom to independently approach, own and solve key problem sets.

The Cloud Infrastructure Developer will manage a critical mission system in the development, test and production environment and provide complex application and system support, including managing incidents, changes, unplanned outages, upgrades and patches. The individual will ideally be familiar with scripting languages in a Linux environment, such as using Python, NodeJS and Bash and preferably be experienced using AWS and OpenStack Technologies. Being experienced with tools like Docker and Ansible is highly desirable, as is experience with a broad array of database technologies, including MongoDB and ElasticSearch.

Cloud Application Developer SFIA 4

Close date:	7 Dec 2020
Location:	Canberra
Reference:	109/2020-2
Employment type:	Permanent
Contact:	contracts_tss@omniexe.com

The Cloud Application Developer will work to the Technical Team Lead. Within a team of like-minded individuals, you will primarily work in a fast-paced development environment with the freedom to independently approach, own and solve key problem sets.

The Cloud Application Developer will manage a critical mission system in the development, test and production environments and provide complex application and system support, including managing incidents, changes, unplanned outages, upgrades and patches. Ideally, the candidate will be experienced in developing large complex web applications, and be able to rapidly learn new technologies.

Cloud Application Developer – Technical Team Lead SFIA 5

Close date:	7 Dec 2020
Location:	Canberra
Reference:	109/2020-3
Employment type:	Permanent
Contact:	contracts_tss@omniexe.com

The Technical Team Lead will marshal a team of motivated Cloud Applications and Cloud Infrastructure Developers supporting a next-generation analytics platform that is designed to meet the needs of intelligence organisations.

The Technical Team Lead will report to the ETSPO Sustainment Director. Business requirements include developing a rolling work plan for approval, sustainment activity updates and alerting the Director of systems related risks and issues. This position requires the management of application and system support, including managing system enhancements, changes, upgrades and patches, incidents and unplanned outages.

The Technical Team Lead will also have extensive experience in developing large complex web applications, and the ability to learn new technologies quickly.

Mission Systems Project Manager SFIA 6

Close date:	26 Nov 2020
Location:	Canberra
Reference:	068/2021-1
Employment type:	Permanent
Contact:	contracts_tss@omniexe.com

The Project Manager is accountable for the planning, management and delivery of new capability and extant system enhancements. The role will involve liaising and facilitating with business stakeholders, business analysts, program architects and development personnel. Additionally, the Mission Systems Project Manager will be required to project manage DEF100 and any subsequent projects.

AWS System Administrator (Operations) SFIA 4

Close date:	9 Dec 2020
Location:	Canberra
Reference:	105/2020-1
Employment type:	Permanent
Contact:	contracts_tss@omniexe.com

The AWS System Administrator (Operations) will work under general direction as part of a small team in the operation and control of software development & team collaboration platforms; including the installation, integration and support of cloud hosted infrastructure. This team works within a framework of legislation, principles and work practices, including management of corporate information in accordance with the Privacy Act, compliance with the Australian Government Information Security Manual, and Agile workload management.
