Windows DevOps Engineer SFIA 4

Close date: 10 Aug 2021

Location: Canberra

Reference: 78/2021- 1

Employment type: Permanent

Contact: contracts_tss@omniexe.com

The Windows DevOps Engineer is accountable under general direction to undertake complex administration, integration and problem management of Commercial Off The Shelf (COTS) and Open Source information management applications in an operational Windows environment of virtual machines and cloud infrastructure.

Personnel will contribute both independently and collaboratively, and may perform changes, outages, upgrades, patches, software development, business analysis and service delivery (support) functions including answering customer calls and performing Level 2 and 3 support after Service Desk triage of initial requests.

Scope of responsibility includes the virtual infrastructure, management of diverse data sets and automated data processing, application and database security, configuring backups and performance tuning. Tasks may include rebuilding or rewriting parts of existing systems, scripted transformations of data sets and maintenance and improvement of automated processing scripts to ensure optimum system integrity.

Windows DevOps Engineer SFIA 5

Close date: 10 Aug 2021

Location: Canberra

Reference: 78/2021- 2

Employment type: Permanent

Contact: contracts_tss@omniexe.com

The Windows DevOps Engineer is accountable under broad direction to initiate and undertake complex administration, integration and problem management of Commercial Off The Shelf (COTS) and Open Source information management applications in an operational Windows environment of virtual machines and cloud infrastructure.

Personnel will contribute both independently and collaboratively, and may coordinate or perform changes, outages, upgrades, patches, software development, business analysis and service delivery (support) functions including answering customer calls and performing Level 2 and 3 support after Service Desk triage of initial requests.

Scope of responsibility includes the virtual infrastructure, management of diverse data sets and automated data processing, application and database security, configuring backups and performance tuning. Tasks may include rebuilding or rewriting parts of existing systems, scripted transformations of data sets and maintenance and improvement of automated processing scripts to ensure optimum system integrity.

Security is a key factor for this section, with involvement from all members in identification, investigation and rectification of security concerns, and implementation, configuration and maintenance of system software to ensure optimal data security.

Service Architect SFIA 5

Close date: 10 Aug 2021

Location: Canberra

Reference: 78/2021- 4

Employment type: Permanent

Contact: contracts_tss@omniexe.com

The Service Architect has authority and accountability for strategic planning, business relationship development and facilitating the continuous improvement of the Digital Workplace Services portfolio, with particular focus on business process digitisation and data-analytic support to business processes.

The Service Architect educates management and customers on the implication of new technologies and clearly articulates the business benefits. The Service Architect analyses customer business processes including providing analytic and reporting support to management to support digitised processes and build evidence for process digitisation.

The Service Architect oversees the service level for the portfolio, balancing business needs, security constraints and resource constraints to develop and continually adjust near, medium and long term service goals. The role drives the delivery of management-sponsored initiatives to improve and replace services, and assists management in strategic work to build up team capacity to effectively deliver digitisation and business analytic services

The role collaborates with junior to senior technical specialists in a mixed contract/APS team, balancing daily operational support against weekly and multi-month deliverables.

Change Management Specialist SFIA 5

Close date: 27 Aug 2021

Location: Canberra

Reference: 16/2021- 1

Employment type: Permanent

Contact: contracts_tss@omniexe.com

The Change Management Specialist will be a highly organised, dynamic, outcome orientated individual with excellent communication skills. The Change Management Specialist will be accountable under the general direction of the Section Head, including but not limited to implementing change management in accordance to ITIL best practice aiming for a maturity level 3, manage a team and provide professional guidance and support.

The Change Management Specialist is responsible for managing complex change requests, evaluating and documenting risks to the integrity of the IT system including availability, performance, security and compliance of the business services impacted, engaging with stakeholders to identify and communicate needs of stakeholder groups, negotiate with senior stakeholders and communicating formally and informally on the progress.

Communications Manager SFIA 5

Close date: 27 Aug 2021

Location: Canberra

Reference: 22/2021- 1

Employment type: Permanent

Contact: contracts_tss@omniexe.com

The Communications Manager is required under broad direction to manage Enterprise Hubs development and delivery of strategic planning documents, communication and increase awareness initiatives within the agency via online and offline platforms. Responsibilities include initial assessment, research, co-ordination and distribution of promotional material and communication on behalf of Enterprise Hub.

The Communications Manager is also expected to write/update Standard Operating Procedures as directed.

ICT System Administrator SFIA 4

Close date: 27 Aug 2021

Location: Canberra

Reference: 82/2021- 1

Employment type: Permanent

Contact: contracts_tss@omniexe.com

The ICT System Administrator is responsible for complex activities and tasks relating to monitoring and maintenance of ICT servers and software. The System Administrator will conduct these activities whilst working cohesively and flexibly with related stakeholders.

Business Analyst – Logistics Management SFIA 4

Close date: 27 Aug 2021

Location: Canberra

Reference: 104/2021- 1

Employment type: Permanent

Contact: contracts_tss@omniexe.com

Working with the Logistics Manager, the Business Analyst is accountable under general direction to identify, manage and communicate business requirements; translate business requirements into functional specifications and work collaboratively with the Logistics management team to support the development of tools to provide life-cycle/asset management assurance to the organisation.

Business Analyst SFIA 4

Close date: 18 Aug 2021

Location: Canberra

Reference: 92/2021- 1

Employment type: Permanent

Contact: contracts_tss@omniexe.com

The Business Analyst role is responsible for eliciting business and technical requirements as well as modelling complex business processes for the purposes of informing ICT capability delivery.

This role requires that the successful candidate be able to interpret the needs articulated by a diverse set of technical customers and non-technical representatives of the broader business community. The role must work with architects, developers and end users to devise solutions that satisfy the customer needs whilst working within the bounds of strategic direction.

Technical Writer SFIA 3

Close date: 19 Aug 2021

Location: Canberra

Reference: 088/2021- 1

Employment type: Permanent

Contact: contracts_tss@omniexe.com

The Technical Writer will produce a range of design, configuration, technical support and training documents for Information and Communications Technology (ICT) projects. The role requires complementary skills to produce documentation for various audiences ranging from highly technical documents through to user friendly and executive-targeted documentation.

The Technical Writer requires highly developed technical writing skills and the demonstrated ability to work in an integrated team of technical and non-technical personnel. Final documentation is expected to comply with Commonwealth standards such as the Commonwealth Style Guide and accessibility requirements.

Customer Service Analyst SFIA 2

Close date: 20 Sep 2021

Location: Canberra

Reference: 17/2021- 1

Employment type: Permanent

Contact: contracts_tss@omniexe.com

As the first-point-of-contact for customers, the Customer Service Officer responds to customer requests, provides advice on services available and resolves minor IT issues. The Customer Service Officer records all customer contacts in the service management application with sufficient detail for Service Desk Analysts or external support teams to investigate and resolve more complex issues.

This role requires a person who enjoys working with and supporting a diverse range of people, communicates clearly, has the ability to think quickly and remain calm in a high-paced environment.

IT Service Desk Analyst SFIA 2

Close date: 20 Sep 2021

Location: Canberra

Reference: 17/2021- 2

Employment type: Permanent

Contact: contracts_tss@omniexe.com

The IT Service Desk Analyst investigates and resolves IT incidents, actions requests received through the Service Catalogue and provides advice about services provided. To provide a quality service, the IT Service Desk Analyst will keep the customer informed of the progress of their request and follow-up any outstanding actions. The IT Service Desk Analyst works in a team environment comprising contractors, providing services to a diverse range of customers. In this high paced environment, the ability to problem solve and develop new skills is essential. The role requires the IT Service Desk Analyst to work independently and also collaborate with team members and external support staff to resolve complex issues.

Contact: contracts_tss@omniexe.com

The Project Support Officer will play an active role in managing packages of work, schedule dependencies, project documentation, procurement, and providing administrative support. The PSO will play an important role in project planning, risk and issue management, helping to drive projects forward to achieve outcomes for a diverse range of customers.

ICT Systems Administrator (Storage and Backup) SFIA 3

Close date: 8 Oct 2021

Location: Canberra

Reference: 83/2021- 3

Employment type: Permanent

Contact: contracts_tss@omniexe.com

Provision of ICT Systems Administration (Storage and Backup) to enable the efficient sustainment of current infrastructure within a complex environment spanning multiple geographically separated data centres and remote offices.

Cloud Application Developer SFIA 4

Close date: 8 Sep 2021

Location: Canberra

Reference: 109/2021- 2

Employment type: Permanent

Contact: contracts_tss@omniexe.com

The Cloud Application Developer will work to the Technical Team Lead within a team of like-minded individuals. The successful candidate will primarily work in a fast-paced development environment with the freedom to independently approach, own and solve key problem sets.

The Role:

- Manage a critical mission system in the development, test and production environments.
- Rapidly learn new technologies by applying industry best-practices and applying your extensive knowledge and experience.
- Provide complex application and system support, including managing incidents, changes, unplanned outages, upgrades and patches.
- Ideally, candidates will be experienced in developing large complex web applications, and be able to rapidly learn new technologies.
- Be experienced in different distributed technologies, including MongoDB or ElasticSearch.
- Be experienced in test automation that is designed to meet the needs of intelligence organisations.

Cloud Application Developer SFIA 5

Close date: 8 Sep 2021

Location: Canberra

Reference: 109/2021- 3

Employment type: Permanent

Contact: contracts_tss@omniexe.com

The Technical Team Lead will marshal a team of motivated Cloud Applications and Cloud Infrastructure Developers supporting a next-generation analytics platform that is designed to meet the needs of intelligence organisations.

The Technical Team Lead will report to the ETSP0 Sustainment Director. Business requirements include developing a rolling work plan for approval, sustainment activity updates and alerting the Director of systems related risks and issues.

This position requires the management of application and system support, including managing system enhancements, changes, upgrades and patches, incidents and unplanned outages.

The Technical Team Lead will also have:

- Extensive experience in developing large complex web applications, and the ability to learn new technologies quickly.
- Experience in different distributed technologies, including MongoDB or ElasticSearch.
- Experience in test automation designed to meet the needs of intelligence organisations.

Project Manager SFIA 5

Close date: 25 Sep 2021

Location: Canberra

Reference: 12/2021- 4

Employment type: Permanent

Contact: contracts_tss@omniexe.com

The Project will undertake capital acquisitions to deliver new communications capabilities and also activities to sustain and enhance existing communication services both domestically and internationally.

The Project requires the services of suitably qualified project manager to assist in the planning and management of day to day work of the project and maintain adequate records to validate compliance with approved management planning requirements and project management methodologies.

Software Developer - Cyber Security SFIA 5

Close date: 23 Aug 2021

Location: Canberra

Reference: 92/2021- 1

Employment type: Permanent

Contact: contracts_tss@omniexe.com

The Software Developer will be accountable under broad direction to interpret specifications and technical designs to build, maintain and modify code or adaptation data for software applications, construct technical specifications from a business functional model, write and execute tests, and write and maintain technical documentation. Roles exist both in project teams and tactical positions embedded to support business units.

Security Administrator and Monitoring SFIA 4

Close date: 25 Aug 2021

Location: Canberra

Reference: 49/2021- 1

Employment type: Permanent

Contact: contracts_tss@omniexe.com

Administration and monitoring of security systems. This includes integration of security and monitoring services with customer networks, as well as engagement with customers on security requirements and ongoing security improvement to systems.

Business Analyst SFIA 4

Close date: 1 Oct 2021

Location: Canberra

Reference: 35/2021- 1

Employment type: Permanent

Contact: contracts_tss@omniexe.com

The Business Analyst/Product Owner will be responsible for customer engagement, process modelling and development of system requirements. They will also be responsible for engaging with the team to ensure customer requirements are well understood and expectations on both sides are appropriately managed.

This position is responsible for the elicitation of business and technical requirements and the modelling of new and existing business processes to inform technical capability delivery for a fast paced, dynamic business unit. The successful candidate will contribute to the support of one of our capabilities within a program. This will involve working with business stakeholders, project managers, systems architects and delivery teams as required to elicit and communicate requirements for successful outcomes. Prioritisation, stakeholder engagement and exceptional communication are all key requirements.

Business Analyst SFIA 5

Close date: 1 Oct 2021

Location: Canberra

Reference: 35/2021- 2

Employment type: Permanent

Contact: contracts_tss@omniexe.com

The Business Analyst will be responsible for customer engagement, process modelling and development of system requirements. This position is responsible for the elicitation of business and technical requirements and the modelling of new and existing business processes to inform ICT project delivery for a fast paced, dynamic business unit.

The Business Analyst will work independently within broad guidelines to contribute to multiple projects within the program. This will involve working with business stakeholders, project managers, systems architects and delivery teams as required to elicit and communicate requirements for successful delivery. The Senior Business Analyst will work with Agile teams to improve Agile processes that ensure customers' needs are understood and eventually satisfied. The Business Analyst interprets the business needs and works with architects and system engineers to ensure the customers' fundamental needs are understood at a basic level. The role is required to work with engineers and architects to satisfy business needs within the strategic technology direction of the organisation.

Change Manager SFIA 5

Close date: 1 Oct 2021

Location: Canberra

The Software Developer will be responsible for working under direction as a member of a team responsible for developing complex programs, integrating Commercial Off the Shelf (COTS) and Government Off the Shelf (GOTS) software, documenting technical processes and assisting with testing and deployment. The role will need well established software development skills and a proven ability to work within an integrated team of technical/non-technical personnel.

Software Developer SFIA 3

Close date: 1 Oct 2021

Location: Canberra

Reference: 40/2021- 9

Employment type: Permanent

Contact: contracts_tss@omniexe.com

The Software Developer is required to develop and integrate software employing an Agile Software Development Methodology (SDM). The role includes developing software, integrating Commercial Off the Shelf (COTS) and Government Off the Shelf (GOTS) software, documenting technical processes and assisting with testing and deployment. The successful candidate/s will need software development skills and a proven ability to work within an integrated team of technical/non-technical personnel.

Software Tester SFIA 4

Close date: 1 Oct 2021

Location: Canberra

Reference: 41/2021- 1

Employment type: Permanent

Contact: contracts_tss@omniexe.com

The Software Tester will be responsible under general direction for creating and executing fit for purpose test plans and test cases, in accordance with the project's testing strategy. The Software Tester will ensure traceability to requirements, manage defects, provide regular progress reporting and work collaboratively with delivery staff to coordinate testing and regression activities.

Test Manager SFIA 5

Close date: 1 Oct 2021

Location: Canberra

Reference: 41/2021- 2

Employment type: Permanent

Contact: contracts_tss@omniexe.com

The Test Manager will be accountable under general direction for developing and implementing appropriate project testing strategies and processes.

Test Engineer SFIA 3

Close date: 1 Oct 2021

Location: Canberra

Reference: 41/2021- 3

Employment type: Permanent

Contact: contracts_tss@omniexe.com

The Test Engineer will be responsible under direction to specify, develop and write test plans and test scripts, produce test cases, carry out regression testing, and use automated test software applications to test the behaviour, functionality and integrity of systems, and document the results.

Test Engineer SFIA 4

Close date: 1 Oct 2021

Location: Canberra

Reference: 41/2021- 4

Employment type: Permanent

Contact: contracts_tss@omniexe.com

The Test Engineer will be accountable under general direction to specify, develop and write test plans and test scripts, produce test cases, carry out regression testing, and use automated test software applications to test the behaviour, functionality and integrity of systems, and document the results.

ICT Security Specialist SFIA 4

Close date: 22 Jul 2021

Location: Canberra

Reference: 106/2021- 1

Employment type: Permanent

Contact: contracts_tss@omniexe.com

The ICT Security Specialist will be a highly organised, dynamic, outcome orientated individual with excellent communication skills who is confident to break down large ICT security accreditation requirements into discrete risk based models and work actions from concept to delivery, for a diverse range of government and commercial customers.

The ICT Security Specialist is responsible under broad direction to help shape the accreditation process of secure community commercial cloud services for systems and information, meet domestic and international policies and standards, and mitigate risks.

System Administrator SFIA 4

Close date: 1 Oct 2021

Location: Canberra

Reference: 42/2021- 1

Employment type: Permanent

Contact: contracts_tss@omniexe.com

The System Administrator is required to provide system administrative support under general direction in a key capability domain; participate within a business environment that is in a complex, emerging domain and operates at a rapid pace.

System Administrator SFIA 5

Close date: 1 Oct 2021

Location: Canberra

Reference: 42/2021- 2

Employment type: Permanent

Contact: contracts_tss@omniexe.com

The System Administrator is required to lead and manage system administrative support activities in a key capability domain; is able to contribute in a business environment which is in a complex, emerging domain and operates at a rapid pace.

System/Network Administrator SFIA 4

Close date: 1 Oct 2021

Location: Canberra

Reference: 42/2021- 3

Employment type: Permanent

Contact: contracts_tss@omniexe.com

The System/Network Administrator is expected to provide support to the Project Management Office (PMO) with the primary focus being on ongoing maintenance activities and the hardware they are responsible for. The types of hardware involved may include servers, blade centres, network devices and other related peripheral components, including PCI-e cards and media convertors.

System Administrator / VMware SFIA 5

Close date: 1 Oct 2021

Location: Canberra

Reference: 42/2021- 4

Employment type: Permanent

Contact: contracts_tss@omniexe.com

The Lead VMware Administrator is required to assist with the management of VMware virtual environment as per the stated direction of the technical lead and manager.

System Administrator SFIA 3
